

MUNEEB UR REHMAN

Ali Town, Lahore | 0313-4964755 | muneebrehman418@gmail.com

PROFESSIONAL SUMMARY

Computer Science student and Software Developer with practical experience building structured applications, processing data, and analyzing AI model behaviors. Proficient in Python, Java, and software architecture. Proven track record in remote, asynchronous environments delivering clean code and functional software solutions.

WORK EXPERIENCE

AI Analyst — Pure IT (Remote) Mar 2025 – Mar 2026

- Evaluated and rated AI-generated responses for accuracy, relevance, tone, and safety across multiple domains.
- Wrote and refined prompts to test and improve large language model outputs.
- Identified patterns in model behavior and documented findings to support iterative model improvement.
- Worked remotely in an async environment, consistently meeting quality benchmarks and delivery timelines.

Web Developer — Nithio (Internship) Apr 2024 – Sep 2024

- Designed and developed responsive websites ensuring optimal performance and cross-device compatibility.
- Implemented front-end and back-end solutions using modern web technologies to meet client requirements.
- Collaborated with stakeholders to gather requirements and deliver functional web solutions on schedule.

Freelance Software Developer — Self-Employed Jan 2024 – Present

- Built and deployed Career Navigator, a fintech web app for Pakistani graduates published live on Replit.
- Developed PayFlow, a 22-screen Android banking application in Java/XML with a Payoneer-inspired UI.
- Delivered a hackathon prototype at GDGoC BNU Lahore aligned to SDG 4 and SDG 8 within a tight deadline.

Operation Associate — EDUFI (Internship) Nov 2024 – Dec 2024

- Supported workflow optimization, process mapping, and internal technical documentation.

Data Entry Specialist — Ahmed Assistance (Part-time) Feb 2025 – May 2025

- Managed large-scale data validation and entry with high accuracy under strict deadlines.

PROJECTS

Career Navigator — Fintech Web App 2025

- Built a CV analysis and job-matching platform for Pakistani graduates; implemented data processing logic for profile matching and deployed live on Replit.
- Aligned to SDG 4 (Quality Education) and SDG 8 (Decent Work and Economic Growth).

PayFlow — Android Banking App 2024

- Developed a 22-screen mobile banking app in Java/XML using MVVM architecture to ensure robust software design, clean data management, and seamless transaction handling.

EDUCATION

BS Computer Science — Superior University, Lahore 2022 – 2026

Core Coursework: Data Structures, Algorithms, Cryptography, Mobile Development, Software Engineering, Fintech Systems.

English Learning Course — Oxford English Coaching May 2024 – Aug 2024

SKILLS & CERTIFICATIONS

Programming: Python, Java, SQL, HTML, CSS, XML

AI & Data: AI Response Evaluation, Prompt Engineering, Data Annotation, Data Entry & Management

Tools: Microsoft Office, Google Sheets & Docs, Android Studio, Replit, Git, CRM Tools

Languages: English (Professional), Urdu (Native)

Certifications: Advanced Python (Harvard) | Advanced Computer Course (TEVTA) | English Proficiency (Oxford) | Operations Associate (EduFi)
